Are you looking for an exceptional location in Berlin for a photo shoot, a business meeting, or a special event? Then this authentically renovated loft might be just the thing for you. In 2014, "The Berlin Loft" was chosen as "Best of Germany" by the world's most prestigious interior design magazine, Architectural Digest, along with only three other interiors.

The loft's industrial character has been maintained through the original concrete floors and 4-meter-high ceilings. The specially designed furniture, selected vintage pieces, factory lights, and old Bakelite sockets and light switches give it a special flair. With an area of 165 m<sup>2</sup> and three separate rooms, this apartment is ideal for meetings, workshops, small company parties, or private dinners.

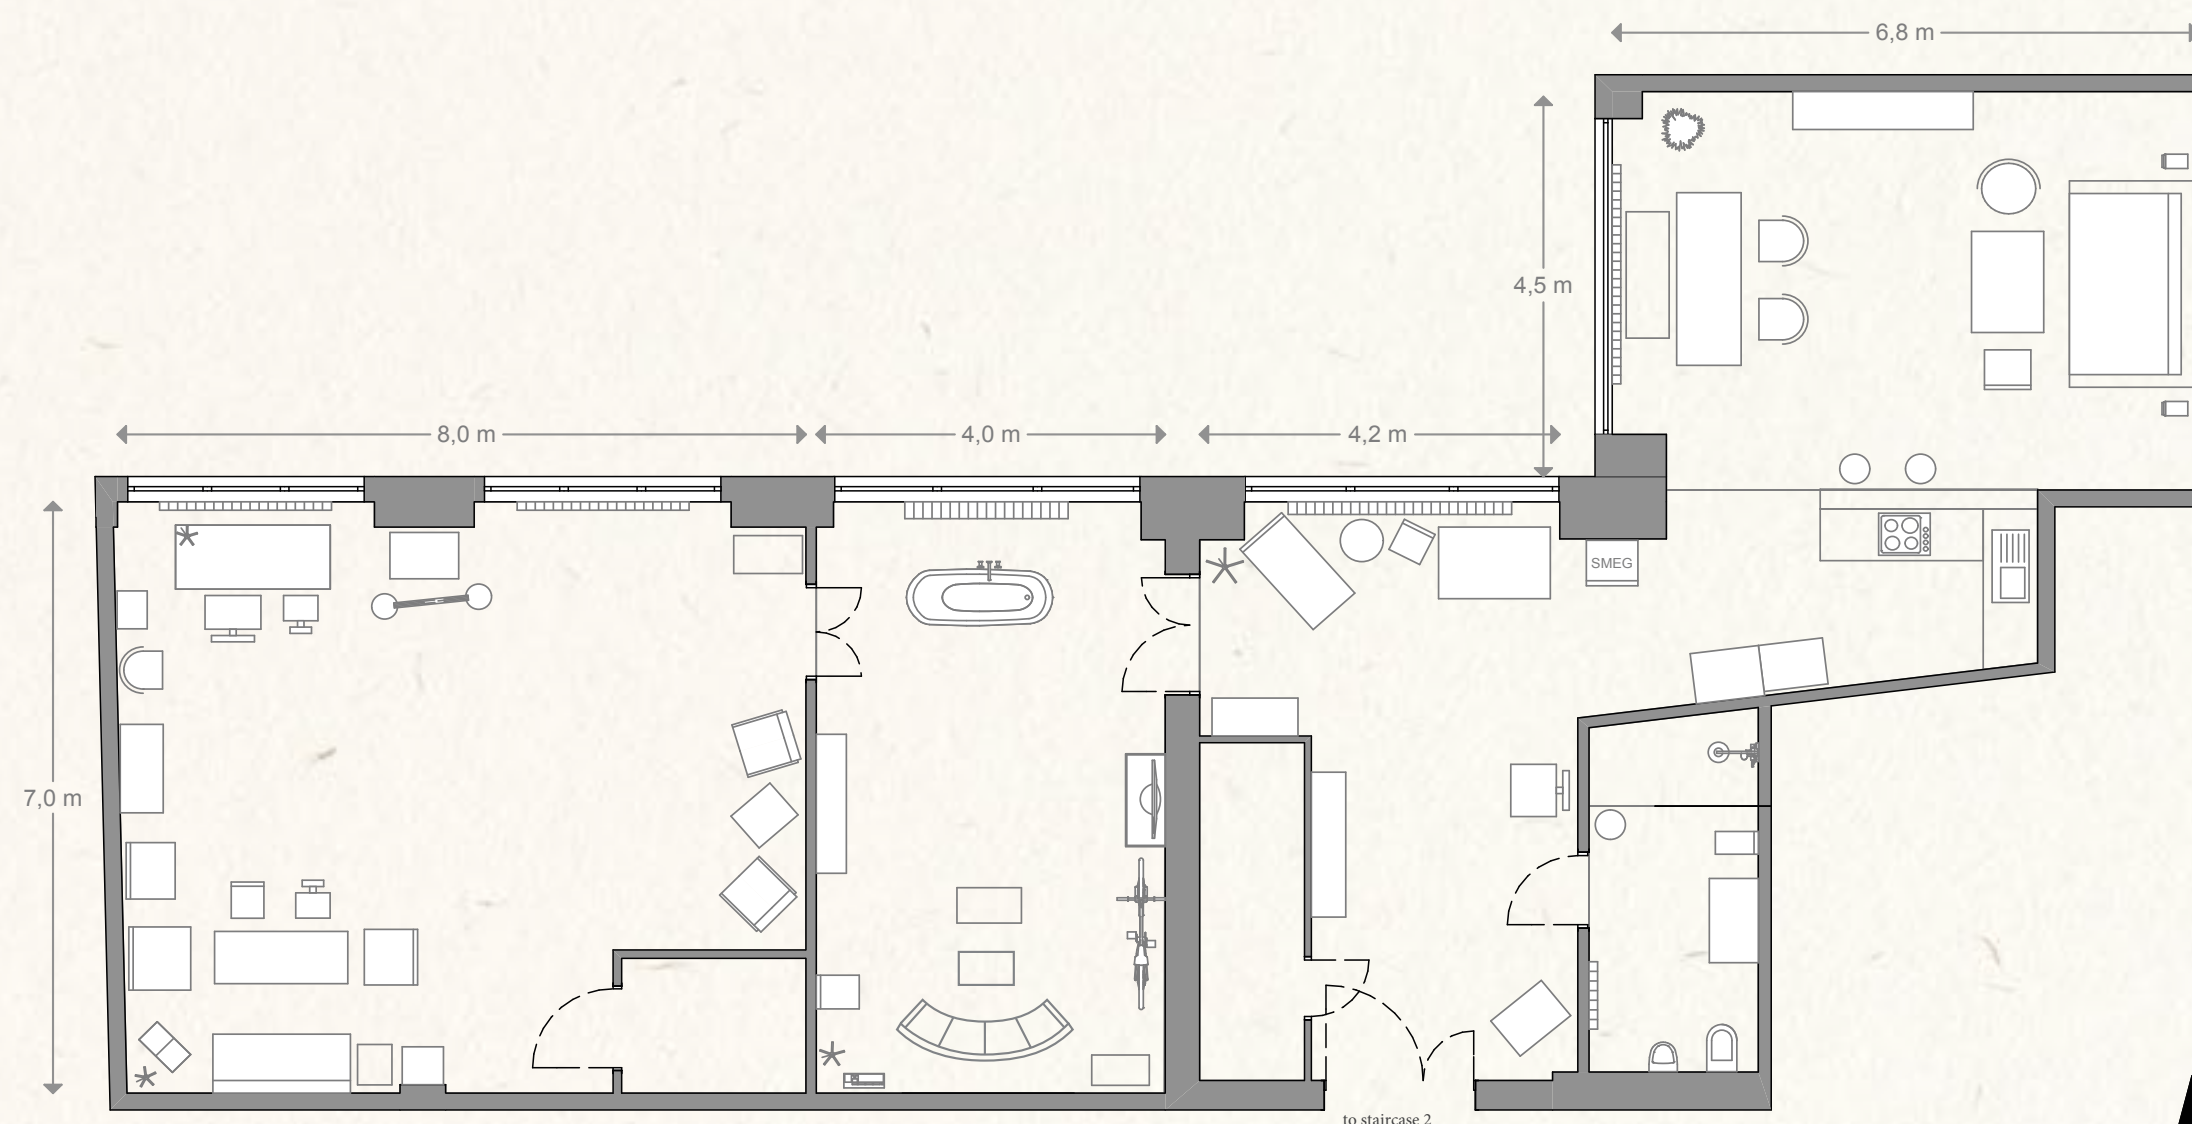

*One of the most impressive lofts in Germany with an original industrial character.*
