

STUDIO 23

STUDIO 23

STUDIO 23 features a large projector screen, a fixed projector, and an innovative sound and light system that can be easily controlled through a tablet. It has two very stylish lounge areas, one of which, measuring over 20 square meters, is equipped with a fireplace and a piano and can be transformed into a dance floor including a disco ball. Another room, separated by a beautiful wall made of antique windows and doors and furnished with rare furniture from the 70s, can also be used as a lounge or office. The highlight is the kitchen with the legendary Lacanche stove from France, a built-in noodle cooker, and a 3-meter wide cooking island made of Golem tiles and a Bora stove. Additionally, we have built a fully equipped mobile bar made of antique wall panels that invites you to enjoy aperitifs and cocktails. It is the perfect setting for culinary events, photo shoots, parties, or workshops.

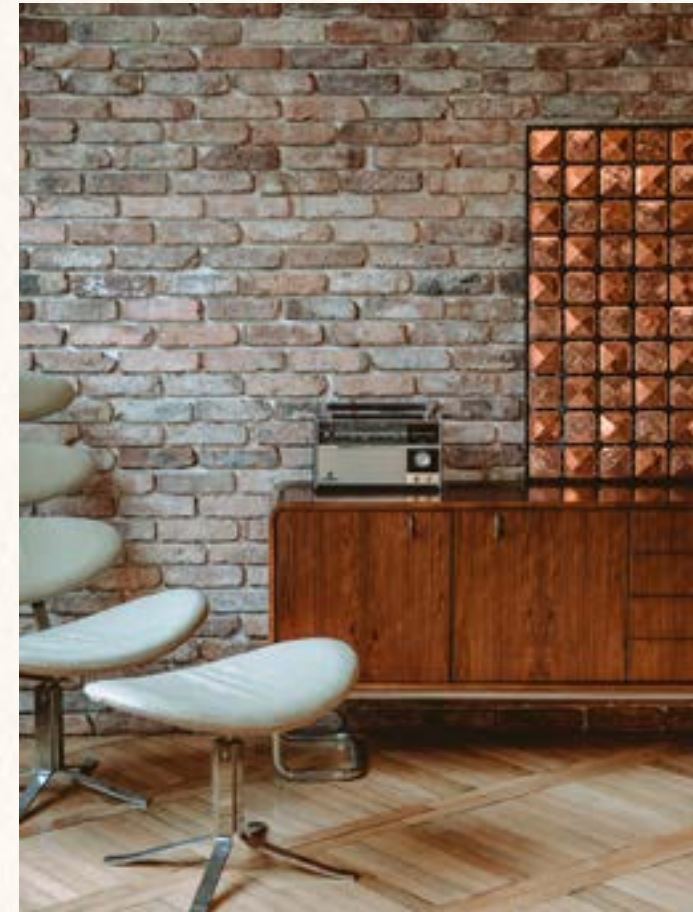

Loft meets château, 70s meet art déco.
